Module Title:	Renewable Energy	
Module ID:	PHYS 4752	
Prerequisite (Co-requisite) :	PHYS 3712	
Co-requisite :	--	
Course Level:	Seventh	
Credit Hours:	3 (3+0+0)	

Module Description

وصف المقرر :

Energy Fundamentals, Fossil fuels, Renewable energy part 1: Solar radiation and solar energy (thermal, photovoltaic and electrochemical), Renewable energy Part II: Alternatives (hydropower, wind power, ocean thermal energy conversion, biomass, geothermal energy, tidal and wave energy), Energy conservation & storage, energy and transportation, air pollution and environment

Module Aims

أهداف المقرر :

<p>Main objective of this course is to provide a base to students for his future research and study planning. After successful completion of this course student will be able to understand:</p> <ol style="list-style-type: none"> 1. Energy Fundamentals 2. Fossil fuels and its limitations 3. Solar radiation and solar energy including thermal, photovoltaic and electrochemical energy that cover first part i.e. more conventional renewable energy sources. 4. In 2nd part of course some alternative renewable energy sources including hydropower, wind power, ocean thermal energy conversion, biomass, geothermal energy, tidal and wave energy 5. Some other relevant topics Energy conservation & storage, transportation, air pollution and effects on environment

Learning Outcomes:

مخرجات التعليم:

1. Understand Energy Fundamentals	1.
2. Know use of fossil fuels for energy production and its limitations	

<p>3. Solar radiation and solar energy including thermal, photovoltaic and electrochemical energy that cover first part i.e. more conventional renewable energy sources.</p> <p>4. In 2nd part of course student should be able to distinguish some alternative renewable energy sources including hydropower, wind power, ocean thermal energy conversion, biomass, geothermal energy, tidal and wave energy.</p> <p>5. Understand downstream problems e.g. energy conservation & storage, transportation, air pollution and effects on environment.</p>
--

Course Contents:

محتوى المقرر:

ساعات التدريس (Hours)	عدد الأسابيع (Weeks)	قائمة الموضوعات (Subjects)
3	1	Energy Fundamentals
9	3	Renewable energy part 1: Solar Radiation and Solar Energy
9	3	Fossil fuels(Thermal, Photovoltaic and Electro-chemicals)
6	2	Renewable energy Part II: Alternatives (Hydropower, Wind Power, Ocean thermal Energy Conversion)
6	2	Renewable energy Part II: Alternatives (Biomass, Geothermal energy, Tidal and Wave Energy)
3	1	Energy Conservation & Storage
3	1	Energy and Transportation
3	1	Air Pollution and Environment
