

Majmaah University
College of Engineering
Department of Electrical Engineering
SD-II Internal Evaluation by Supervisor

Form 6b: SENIOR DESIGN PROJECT (EE-498/EE-499) EVALUATION

Course Number:

Project Title:

Student Name:

ID No.:

Tested SLO	KPI	Marks	Marks Obtained
a	Executes calculations correctly and translates academic theory into engineering applications	5	
b	Analysis and interpretations of data using appropriate theory	6	
c	Developing a design strategy and solutions that includes realistic constraints	6	
d	Preparation for group meetings, cooperation, sharing information and credit of success in the team.	5	
e	Practical problem solving using theoretical concepts	6	
f	Practice professional code of ethics with no plagiarism in final reports and research ideas	6	
g	The organization of the written materials, Use of Graphs, Tables and Figures. Grammar and spelling	5	
h	Historical aspects of engineering solutions, Awareness of current trends and events, Personal Perspective in Electrical engineering	5	
i	Capability to think for one's self and assignments completion	5	
j	Knowledge of current events in the Electrical engineering discipline	5	
k	Development and implementation of logical experimental procedures	6	
Total		60
